Multi-Functional Electroporation Facial Beauty Device 多功能電流微針童顏瘦面機

“Clione dot”

Regular Mode

You can feel comfortable stickiness to your skin. Regular Mode makes you relaxed and comfortable.

dot Mode (MFIP)

You can get more beautiful skin much quickly with MFIP.

You will feel a little stronger stimulus like finger tapping pressure.

New Technology

MFIP(Mid Frequency Interval pulse)

MFIP(dot mode) Release at the international conference at Korea.

內置 MFIP (dot 模式) 已在韓國國際會議正式發佈

MFIP is a technology which gives you intermittent electrical pulse(90kHz).With this technology, you will feel a little stronger stimulus like finger tapping pressure and MFIP makes you relaxed and comfortable. You can get much more beautiful skin with Radio Frequency, EMS, LED and Ultra Pulse.

MFIP 為美肌導入電流 (90kHz), 其指壓模式能達致按摩功效, 令美肌同時更可鎮靜及舒緩壓力
配合電頻, 電流, 射頻及 LED 提升緊致輪廓, 完成你的童顏瘦面療程
